ULTRAGRANIIT

THE KITCHEN XPERIENCE

# OUR CONCEPT

*revolution*

Las últimas tecnologías de metales en PVD nos llevan a combinar griferías, componentes y accesorios con unos acabados de altísimo valor estético consiguiendo zonas de aguas de gran valor y diseño.

Estos acabados gozan de una excelente resistencia muy superior a otros tratamientos existentes y garantizamos una dureza hasta cuatro veces superior al acero convencional.

## OUR TECHNOLOGY

tecnología

## ARIA PURA

### La tecnología que lleva la pureza del cielo a la cocina

El material de los fregaderos Plados está enriquecido con nanopartículas de dióxido de titanio (TiO<sub>2</sub>), que no sólo contribuyen a la purificación del aire en el ambiente de la cocina sino que tienen una acción antibacteriana haciendo el fregadero más fresco y limpio.

ARIAPURA está presente en toda la masa del fregadero, tiene una vida útil ilimitada, permanece activa y conserva toda su eficacia a lo largo del tiempo incluso en caso de desgaste y rayado de las superficies.

Todos los fregaderos Plados están equipados con la tecnología patentada tecnología ARIAPURA que realiza una triple acción:

- Anticontaminante
- Antibacteriana
- Autolimpiante

# OUR VALUES

valores

## PRO DRAIN

El sistema de válvula moderno: bonito, eficiente, práctico en su uso y mantenimiento

## PRO DRAIN

Pro Drain es el innovador sistema de válvula de la colección PVD TECH. Detalles que elevan el fregadero a los más altos niveles.

# CREA TU CONCEPTO JOYA

El detalle perfecto es aquel que exalta el contexto y completa el diseño

### VÁLVULA PRO DRAIN

BK Black

CP Copper

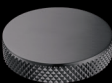

GO Gold

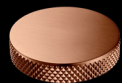

LA Latón

Nuestra nueva inspiración se llama Pro Drain. Nuestro nuevo sistema de desagüe creado para ofrecer la máxima funcionalidad y el más alto nivel de diseño. Sus aberturas en forma de aspa disminuyen la entrada de residuos al interior y su tapón ergonómico proporciona una gran practicidad de uso. Sus acabados con PVD TECH en Black, Copper, Gold y Latón crean un auténtico efecto joya.

GO Gold

LA Latón

Las válvulas automáticas Diamant y Tirette fabricadas con la mejor tecnología PVD realzan la estética del fregadero y mejoran aún más la experiencia de uso al permitir el control remoto de la apertura y cierre de la válvula. Son elementos de alto valor añadido que crean un auténtico estilo.

OUR FINISHES

acabados

NANOSTONE

Material exclusivo de última generación diseñado con el objetivo de proporcionar un fregadero de altísimas prestaciones mecánicas y estéticas. Concebido para entornos modernos y contemporáneos, NANOSTONE está compuesto por resina acrílica pura y una mezcla de cargas minerales de ingeniería, capaces de unirse para desarrollar una red tridimensional 3D de enlaces de hidrógeno mediante un proceso químico que se produce gracias a las geometrías precisas de los minerales implicados y a su polarización.

# ULTRAGRANIT

La altísima concentración superficial (más del 80%) de micropartículas de cuarzo y granito generadas por un sofisticado proceso de sedimentación durante la producción confiere a ULTRAGRANIT extraordinarias características estéticas y un agradable efecto al tacto, combinados con una altísima dureza superficial, resistencia a los agentes químicos, al calor y al rayado.

Las partículas metalizadas de la mezcla, junto con los cristales de cuarzo y granito, crean tonos y acabados metálicos en las superficies de los fregaderos. Los colores fríos, las superficies satinadas y el efecto metalizado hacen que el fregadero ULTRAMETAL sea especialmente idóneo para ambientes modernos y para combinar con los electrodomésticos de acero inoxidable que suelen encontrarse en las cocinas. Un fregadero Ultrametal es fácil de limpiar, muy higiénico y resistente a arañazos, productos químicos, calor y altas temperaturas.

# One AUTUMN EDITION

ENCASTRE

BAJO ENCIMERA

FILOTOP\*

Nuestra ONE como nunca la habías visto antes. La ONE más desenfadada aterriza en esta exclusiva colección con dos nuevas tonalidades como Verde Salvia y Rosso Merlot para llenar de colores densos, cálidos e intensos tu zona de aguas. Acabados de concepto otoñal que combinan perfectamente con la tendencia actual de encimeras y mobiliario de cocina.

\* Instalación Filotop (FT) plazo de entrega 4 semanas. Suplemento 120 € PVR

# Cosmo

ENCASTRE

BAJO ENCIMERA

Vanguardistas cubetas disponibles en dos exclusivos acabados: Black Matt y Artic White. Su doble instalación, tanto encastre como bajo encimera, dota al producto de una gran versatilidad.

A su vez, el mayor atractivo del producto radica en su pestaña SLIM de tan solo 6 mm. que le confiere una estética muy minimalista y exclusiva.

THE KITCHEN XPERIENCE

# Contempo

En las casas rurales tradicionales, el fregadero era el centro de numerosas operaciones, desde preparar la comida hasta lavar los utensilios de cocina, la ropa e incluso a los niños. Contempo es nuestra reinterpretación del fregadero Farmhouse, con un diseño renovado que traspasa épocas y estilos, adaptándose a cualquier ambiente, campestre o moderno. La zona que alberga la grifería es grande y espaciosa para albergar accesorios y utensilios. Las guías de los bordes del fregadero están diseñadas para alojar accesorios deslizantes, lo que hace que la experiencia del usuario sea más práctica y funcional.

CONTEMPO EL FREGADERO A MEDIDA

La parte trasera del fregadero CONTEMPO va siempre apoyada contra la pared y está diseñada para que se pueda cortar y así adaptarse a encimeras de diferentes profundidades con el objetivo de que sobresalga al menos 15 mm. o más del borde de la encimera. Asimismo, se han establecido dos cortes en altura para que el saliente respecto a la encimera sea igual o superior a 15 mm. en encimeras de 12 a 20 mm. de espesor, o igual o superior a 5 mm. en encimeras de 30 a 40 mm. de espesor.

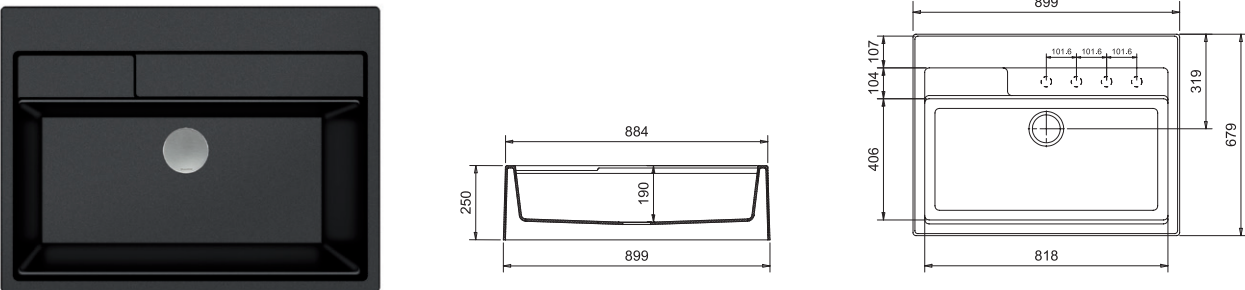

Para pedir el fregadero CT9010, indique el **código del producto + el código del corte + el código del color**.  
Elija el corte más adecuado, en función de la profundidad y el grosor de la encimera, consultando los códigos de la siguiente tabla y, por último, añada el código del color elegido.

|                             | PARA TOP PROFUNDIDAD 650 mm | PARA TOP PROFUNDIDAD de 615 mm a 635 mm | PARA TOP PROFUNDIDAD 600 mm |
|-----------------------------|-----------------------------|-----------------------------------------|-----------------------------|
|                             | Código: CT9010/23A/...      | Código: CT9010/23B/...                  | Código: CT9010/23C/...      |
| GROSOR TOP de 12 mm a 20 mm |                             |                                         |                             |

FARM HOUSE ACCESORIOS PLADOS

Atención: Corte fuera escuadra.  
Diseña la parte frontal del mueble,  
respetando las dimensiones  
mostradas en la imagen superior.

El fregadero **LX8410** tiene la particularidad de tener **dos frentes diferentes**: Uno de los frentes tiene esquinas ligeramente redondeadas con un radio de **18 mm** y un borde perimetral de 35 mm de ancho para adaptarse a **cocinas más lineales** y rigurosas en ambientes **modernos y contemporáneos**. El frontal opuesto tiene esquinas más redondeadas con un radio de **40 mm** y un borde perimetral más profundo de 60 mm.

# Bradanit

ENCASTRE

BAJO ENCIMERA

La inspiración llega con Bradanit72 y sus valores siempre vienen multiplicados por dos. Su doble escalón, uno superior y otro inferior, nos permite trabajar a tres niveles.

Sus exclusivos accesorios como la tabla de corte de Bambú, tabla de corte HPL, cubeta perforada o Roll Up transforman este fregadero en una auténtica zona de trabajo Workstation. Permite dos tipos de instalación, encastre y bajo encimera, lo que dota al modelo de una gran versatilidad y está disponible en dos exclusivos acabados, Black Matt y Artic White.

BRADANO

FREGADERO **MULTI NIVEL**

La inspiración llega con Bradanit72 y sus valores siempre vienen multiplicados por dos. Su doble escalón, uno superior y otro inferior, nos permite trabajar a tres niveles.

El **Nivel 1** hace referencia a la superficie inferior del fregadero. Muy cerca aparece el **Nivel 2** donde la tabla de corte, colocada de forma horizontal, actúa como porta platos. Por último, el **Nivel 3** proporciona una zona de trabajo de corte con la tabla colocada verticalmente o con la cubeta perforada y el Roll Up como accesorios auxiliares.
